

Krishan Malinda

Software Engineer Intern

✉ gampalagekm@gmail.com ☎ +94703904450  Krishan Malinda  Krishan Malinda

PROFILE

Motivated and detail-oriented Full-Stack Web Developer with a comprehensive understanding of modern web technologies. Skilled in designing and developing dynamic, responsive applications using HTML, CSS, JavaScript, React.js, and Node.js. Experienced in integrating and managing databases such as MongoDB and Firebase to deliver efficient and secure solutions. Committed to writing clean, maintainable code and optimizing user experience. Enthusiastic about applying technical expertise and creativity to contribute to innovative software projects and gain practical exposure through a software engineering internship.

EDUCATION

Sabaragamuwa University of Sri Lanka

BSc. Hons. in Computing & Information Systems (Reading)

2022 – Present

Belihuloya, Sri Lanka

Thelijjawila Central College

G.C.E(O/L) , G.C.E(A/L) Advance Level (2020)(Physical Science Stream)

2007 – 2021

Matara, Sri Lanka

PROJECTS

Stockguard Management System(Group)

2025 – 2025

IOT | Firebase | MySQL

StockGuard Management System is a smart inventory tool that provides real-time stock monitoring, low-stock alerts, easy product management, data tracking, and a user-friendly interface for efficient inventory control.

My Contribution:

- Developed the frontend for a smooth and responsive user experience.
- Built the backend to handle data processing, storage, and alerts.
- Integrated the IoT components for real-time inventory updates.

Farm Management System SUSL(Group)

2025 – 2025

Laravel | MySQL

Farm Management System SUSL is a digital platform for Sabaragamuwa University Agri Faculty staff to manage crops, livestock, and resources. It offers task scheduling, inventory tracking, data analysis, reporting, and a user-friendly dashboard for efficient farm management.

My Contribution:

- Developed the frontend, including the dashboard, responsive design, and CSS styling for a smooth user experience.
- Implemented PDF generation and profile update functionalities.
- Built the backend to handle data processing, storage, and alerts.

BinGo – Garbage Management System (Ongoing Project)(Group)

2025 – Present

Flutter | Dart | Firebase

BinGo is a mobile app that improves garbage collection by optimizing routes and tracking schedules in real time. It includes an admin dashboard and notifications for updates, making waste management more efficient.

Fridge AI – Smart Recipe Recommender (Ongoing Project)(Group)

2025 – Present

React | Python | TensorFlow | Node.js | Computer Vision

AI-powered mobile app that tracks food inventory and suggests recipes using available ingredients. It features food recognition, personalized recipe recommendations, and expiration date tracking for smarter kitchen management.

SKILLS

Technical Skill

- **Programming Languages:** Java, Python, Dart, PHP
- **Libraries/Frameworks:** React.js, Next.js, Angular, Spring Boot, Laravel
- **Tools:** GitHub, Figma, PyCharm, VS Code
- **Database:** MySQL, MongoDB, Firebase
- Good Practice of DSA and OOP principles for solving complex programming problems effectively

Soft skill

- Teamwork & Collaboration
- Time Management
- Problem-Solving
- Presentation & Communication

CERTIFICATES

IT Essentials Course – Cisco Networking Academy

Gained foundational knowledge in computer hardware, software, and networking basics.

PROFESSIONAL EXPERIENCE

BYTEGUARD Technologies & Security Solution

Technician

2023 – Present

Matara, Sri Lanka
